**Highlighted in red:** Answers are readily available by Email for these chapters.

**None:** There were no exercises in these chapters.

**Verification:** These exercises ask the reader to build the model and verify the results in the book. Readers will know when they have the right answer.

**Later:** There are no answers for now; but they will be readily available later. Meanwhile, instructors may send me an email (FordA@wsu.edu) with questions/comments on the exercises in these chapters.
